Subject: Comp Plan & Zoning project update & invitation

Dear Residents and concerned members of the Community:

As you may know, the Village of Tarrytown is embarking on its critical next steps for visioning its future through the Comprehensive Plan & Station Area Zoning project. This spring, a consultant team led by WXY was brought on board and the project's Steering Committee began meeting monthly.

SAVE THE DATE:

We will be reaching out in early fall to provide a project update and solicit community input.

We are also planning for a Village-wide workshop on **Sunday, September 17 at Warner Library** and hope you will join us then as well.

SUMMER SYMPOSIA:

Over the summer, the project will be holding three symposia with the Steering Committee to explore existing conditions and facilitate discussions around priorities for Tarrytown. A guest speaker will present on emerging trends and best practices at each.

The Steering Committee welcomes your participation in these events; your in-depth knowledge of the Village will be a key resource in moving the project forward. Below are the dates and topics, all to be held in the Village Hall first floor Board Room, from 6 – 8 pm.

Wednesday, June 28, 6:00 – 8:00 p.m.

Topic: *Built Environment & Mobility*

Wednesday, July 19, 6:00 – 8:00 p.m.

Topic: *Economy, Community, Culture & Education*

Wednesday, August 9, 6:00 – 8:00 p.m.

Topic: *Natural Environment, Open Space, Resiliency & Sustainability*

Please put these symposia workshops on your calendar, and hopefully we'll see you this summer! Thanks!

Bill Brady
Village Project Manager

Richard Slingerland
Village Administrator
