Rules of the Zoning Board of Appeals and Instructions for Bringing an Appeal

I. Jurisdiction of the Zoning Board of Appeals

- A. The Zoning Board of Appeals' ("ZBA") jurisdiction is appellate only. An application can only be brought before the ZBA if the applicant is appealing the interpretation or determination of an administrative official charged with enforcing Chapter 305 of the Village of Tarrytown Code ("Zoning Code"). In most instances, the applicant will be appealing a Letter of Permit Denial issued by the Building Inspector.
- B. The ZBA can only consider an application/appeal if it is brought within sixty (60) days of the administrative official's determination being filed with the Village.
- C. There are two forms of relief an applicant can seek from the ZBA in bringing an appeal: (1) an interpretation/appeal of determination or (2) a variance (use or area). An applicant can seek either or both forms of relief from the ZBA in the same application. It must be clearly indicated on the application what relief the applicant is seeking.
- D. The ZBA cannot consider an application if there are existing violations on the property unrelated to the variances being sought.

II. Application

- A. The applicant can obtain an application packet from the Village of Tarrytown Planning and Zoning Department ("Planning & Zoning Dept.") at the address stated above, or on the Village of Tarrytown's website at:
<http://www.tarrytowngov.com/planning-zoning-department/pages/documents-forms>
- B. New York Village Law and the Zoning Code govern the substance and procedure of applications to the ZBA. The applicant should familiarize themselves with these provisions and comply with them in making their submission to the ZBA.

- C. The Checklist for Initial Submission for Zoning Board of Appeal Application (“Checklist”) sets forth everything that must be submitted with an application to the ZBA. To the extent templates of any required forms are provided in the Application Packet (which are denoted with a ** next to the form on the Checklist), the applicant must use the form provided. With the exception of the application filing fee, the applicant must submit twelve (12) copies of all documents on the Checklist.
- D. The application must be signed before a notary public by the person(s) or entity making the application, who must either: (i) have a possessory interest in the property (tenant, lessee, purchaser or owner) or (ii) be aggrieved by an interpretation or determination of an administrative official charged with enforcing the Zoning Code. If the applicant is a corporation or other business entity, certain other disclosures are required as detailed in the application.
- E. The applicant may retain a representative(s) to complete the Application, prepare and compile the required documents and/or present the application to the ZBA on the applicant’s behalf. In that case, it should be clearly indicated on the application forms who is the applicant and who is the retained representative and the relationship between the parties.
- F. It is the applicant’s responsibility to complete all portions of the application, including the Checklist, carefully and to provide, together with the Application, all necessary information. Careful attention must be given to answer all questions on the forms and to provide all documentation. Failure to submit the required documents and information will delay the application or result in its denial, since the ZBA cannot review or grant relief based upon incomplete applications.
- G. Notwithstanding the foregoing, based upon an adequate showing by the applicant, the ZBA may waive the furnishing of any documentation included on the Checklist in any specific case.
- H. **Although employees of the Village may provide assistance during the application process, it is the applicant’s responsibility to be familiar and comply with all applicable laws and to submit all necessary plans, documents and information.**
- I. The application must include a filing fee. The fees are as follows:
 - i. Residential property: \$200.00
 - ii. Commercial property: \$750.00
 - iii. Renewal of variance: \$75.00
- J. In the event the ZBA has to retain outside expert consultants to review the Application in order to be able to make a decision on the Application (aside from

the ZBA's attorney and members of the Building Department), the applicant will be responsible for paying the fees associated with those services.

- K. Should it be necessary to remove a tree due to a zoning variance request, the applicant must inform the ZBA of such per the requirements of Chapter 281 of the Village of Tarrytown Code ("Tree Code").

III. Agenda

- A. ZBA meetings are regularly held on the second Monday of every month. However, due to holidays or scheduling conflicts, this may change. It is the applicant's responsibility to confirm the date of the meeting with the Village.
- B. The ZBA can only hold a public hearing on an application if they have a quorum, meaning that three (3) or more of the five (5) members of the ZBA are present at the meeting. If for some reason there will not be a quorum present at the meeting, the meeting will either be rescheduled to a date where a quorum can be present or adjourned until the following month's regularly scheduled meeting. The Village will do its best to give applicants as much advanced notice as possible if this is likely to occur.
- C. A completed application must be submitted by the close of business at least eighteen (18) calendar days before the next ZBA meeting in order for the application to potentially be put on the ZBA's next meeting agenda. This deadline will be strictly enforced and if this deadline is not complied with, the application will automatically be held over until the following month's meeting.
- D. There will be no more than six (6) new applications placed on the ZBA agenda in any given month. Therefore, even if an applicant complies with the deadline set forth above, the application still may not be placed on the next meeting agenda if the ZBA has already received the maximum number of new applications for that month.

IV. Notice

- A. The applicant must, at the applicant's sole expense, provide written notice by certified mail, return receipt requested, to owners of property within 100 feet of the closest property line of the property at issue in the application at least ten (10) calendar days prior to the public hearing. The applicant will be provided with a list of all properties within the 100 foot radius from the Zoning Department.
- B. Included in the Application Packet is a template of the Notice of Public Hearing ("Notice"). The Notice must be completed by the applicant and submitted with the application materials in accordance with Section III(C). It is solely the applicant's responsibility to ensure that the information on the Notice is correct

and consistent with (1) the information in the Application and (2) the determination being appealed.

- C. Upon timely submitting the application materials and the prepared Notice, Village staff will determine whether the application will be placed on the next meeting agenda and will notify the applicant of such. Village staff will also review the Notice for completeness before it is circulated and at the time it notifies the applicant as to whether the application will be placed on the next meeting agenda, the Village staff will also notify the applicant if the Notice is complete for circulation purposes. Based upon the information provided on the Notice submitted by the applicant, the Village will publish notice of the public hearing with the appropriate news outlet Ten (10) days before the ZBA meeting.
- D. The Village will make every effort to ensure a timely response is provided to the applicant and that adequate notice is published with the appropriate news outlet. However, issues arise and sometimes deadlines cannot be complied with for a variety of reasons. In the event appropriate and timely notice is not given of the public hearing, whether due to a delay by the applicant, the Village or otherwise, the ZBA may not be able to hear the application and the application may have to be re-noticed for the next ZBA meeting.
- E. The applicant must also erect a sign facing each public street on which the property abuts, giving notice that such application has been made and that a public hearing will be held. Such signs shall be obtained from the Planning and Zoning Dept. and must be displayed for a period of not less than ten (10) days immediately preceding the hearing date or any adjourned hearing date. The sign shall not be set back more than 10 feet from any property or street line and shall not be less than 2 feet or more than 6 feet above the grade at the property line. Said sign shall be affixed to a suitable frame, which will assure visibility from the street at all times.
- F. Prior to the commencement of the public hearing, the applicant must submit a signed Affidavit of Public Notice Requirements, a copy of the list of property owners within 100 foot radius obtained from the Zoning Department and proof of mailing receipts. This may be done in advance of the ZBA meeting or at the ZBA meeting.
- G. The applicant will not be permitted to seek any relief from the ZBA other than what is stated on the circulated Notice.
- H. If the applicant subsequently amends the application or it is discovered that the information included in the Notice is not accurate or incomplete, the applicant may be required to re-notice the application at the applicant's sole expense. The ZBA will not be able to make a decision on the application until it has been properly noticed to comply with the statutory time requirements.

V. Public Hearing

- A. Assuming all of the above-referenced requirements have been complied with and all of the necessary documentation has been submitted, the ZBA will open a public hearing on the Application as noticed.
- B. The applicant is expected to be prepared to proceed with their application at the public hearing, either in person or by an attorney, architect or another lawfully designated agent, by presenting to the ZBA: (1) the relief sought from the ZBA; (2) a full description of the proposed project that requires the relief from the ZBA; and (3) answering any questions or the ZBA may have. An authorized representative of the applicant is expected to be able to address any and all issues that may be raised by the ZBA related to the application.
- C. During the public hearing, the ZBA may decide that it needs additional information from the applicant in order to make a determination on the application. The applicant must submit twelve (12) copies of any additional information requested by the ZBA no less than five (5) calendar days before the date of the next ZBA meeting.
- D. In the course of considering the application before the ZBA, the ZBA may also be required to take one or more actions in order to comply with the State Environmental Quality Review Act (“SEQRA”) and its implementing regulations. SEQRA requires a different analysis than an interpretation/appeal or variance application and therefore the ZBA may have to consider different issues and/or require different information from the applicant than what the ZBA is required to consider in deciding the interpretation/appeal and/or variance application before the Board.
- E. The ZBA will not close the public hearing and make a decision pursuant to SEQRA and/or on the application until it has all necessary information to do so. An applicant’s failure to submit the information and/or documentation set forth in the Checklist or any additional information requested by the ZBA may result in the ZBA either not being able to take action on the application or denying the application outright.
- F. So long as the public hearing remains open, the applicant may request that the application be adjourned to a subsequent meeting.
- G. Once the public hearing has been closed, the ZBA will not be able to consider any new information, comments or requests from the public or the applicant.

VI. Decision by ZBA

- A. After the public hearing has been closed and the ZBA has taken any and all necessary actions related to SEQRA, the ZBA will proceed with issuing a

determination on the application. The ZBA can either vote on an oral resolution proposed at the meeting, or the ZBA can ask the ZBA's attorney to draft a written resolution based upon the ZBA's comments on the application. In the case of the former, the resolution will be memorialized in the ZBA's meeting minutes that are reviewed and approved by the ZBA at subsequent meetings. In the case of the latter, a resolution will be drafted and reviewed by the ZBA in advance of the meeting and voted on by the ZBA at the next meeting. In either form, the resolution will subsequently be filed with the Village Clerk's Office.

- B. If the ZBA denies a variance application, the ZBA cannot hear another application for the same variance(s) for the same property for six months.

14. USE VARIANCE. A use variance may only be granted if it is determined that the applicable zoning regulations and restrictions cause the applicant unnecessary hardship. New York law requires the applicant to demonstrate **all** of the following criteria.

Village of Tarrytown
Zoning Board of Appeals Application

Explain (conclusory statements are not sufficient) how this Application satisfies each of the criteria and refer to and attach any and all documentation that supports your position. If you address this in a separate letter submitted in support of your application, it must address each specific criterion separately as set forth in the Application.

- a. The owner is deprived of a reasonable return for each and every permitted use under the zoning regulations for the particular district where the property is located. This deprivation **must** be established by competent financial evidence (“dollars and cents” proof);

- b. The alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood;

- c. The requested use variance, if granted, will not alter the essential character of the neighborhood; and

- d. The alleged hardship has not been self-created.

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
