

## FALL LEAVES REGULATIONS

One, Two and Three Family Properties – During the period from October 15 through December 15, leaves may be placed at the edge of a property, next to the curb for collection by the Village of Tarrytown Department of Public Works. Leaves are not to be placed in the street. As an alternate, leaves may be bagged or delivered to the Organic Waste Transfer Station, subject to the regulations included herein. During the period from December 16 through October 14, leaves shall be bagged. The Superintendent of Public Works may expand the period when leaves will be collected at curbside based upon specific weather conditions during that leaf season.

Residential Properties larger than three family, cooperatives, condominiums, apartment buildings and commercial properties shall either bag the leaves and deliver the bags to the Organic Waste Transfer Station or deliver the leaves unbagged for deposit in the Organic Waste Transfer Station off of Tower Hill Road. Leaves at these properties shall not be placed next to the curb. If the leaves are placed next to the curb, the leaves will not be collected by the Village.

The Organic Waste Transfer Station shall be available for the deposit of leaves from October 15 through December 15. The Superintendent of Public Works may expand the period that the Organic Waste Transfer Station is open for the deposit of leaves depending upon the weather during that particular leaf season.

The Organic Waste Transfer Station shall be open from 7:30 a.m. to 9:00 a.m. and 1:30 p.m. to 3:00 p.m., Monday through Friday. Should a resident, property owner or Green Industry Contractors registered with the Village of Tarrytown need to deposit leaves at the Organic Waste Transfer Station at time other than those noted herein, a specific request shall be submitted to the Superintendent of Public Works or his/her designee and should there be a staff member available, the Organic Waste Transfer Station may be opened for the special deposit of leaves. The resident, property owner or Green Industry Contractor shall be responsible for payment of the time required for the staff member to service the special deposit request.

The Village will be assigning a Department of Public Works staff person to be present at all times that the Organic Waste Transfer Station is open to accept fall leaves. That DPW staff person has the right to reject a load should that load contain materials unacceptable for deposit at the Organic Waste Transfer Station.

The Organic Waste Transfer Station shall not be open for deposit of any other materials or outside of the dates established by the Village for the deposit of fall leaves.
