BE IT RESOLVED that the Board of Trustees of the Village of Tarrytown does hereby continue the Public Hearing to Monday March 18, 2019, the next Regular Meeting of the Board of Trustees so that the revised text may be re-published prior to adoption.

Note: The most recent version of the text of the draft local law is as dated September 28, 2018.

CONTINUATION OF PUBLIC HEARING - LOCAL LANDMARK
DESIGNATION, 740 SOUTH BROADWAY (continued)

Trustee Zollo moved, and Trustee Brown seconded, and unanimously carried (6-0), that the hearing be opened.

Linda Viertel, 8 Gracemere, stated that she moved to her home in Gracemere 30 years ago, then known as the Dickenson House; we were only the 2nd residence in over 100 years. The Dickenson family was grateful that we restored parts of our home and landscaping as best we could. The Dickenson's gave us a scrapbook of the house being built in 1914 and have even visited our home. Luckily, the Dickenson's didn't sell their home to the Unification Church (HSA), who asked to buy it for a multi-family structure. Who knows what shape our home would be in right now if they had? The Dickenson's didn't sell it to a developer either, who wanted to buy the house. If they did, there would be 7 other homes built and her home would probably have been knocked down in the process. We moved to Tarrytown precisely because of its history and wanted to be a part of preserving that. Another family is moving into the Macy home in Gracemere. Although it was extremely poorly taken care of by the HSA over the years; it is now another late 19th Century home being saved from the wrecking ball. Thanks to people who understand the power of the exterior of architecture. There are people who care about our local history and would love to purchase a landmarked home. Preserve it for future generations and cherish it as a valuable asset, as it should be. The Akers farm house at 740 South Broadway is a valuable asset, landmarked or not and should have been treated as such over the years. Instead, the HSA allowed the home to deteriorate, then claimed hardship and the need to sell. Please don't reward them for their lack of duty, community spirit and respect for historic South Broadway.

When Ms. Viertel moved to Gracemere 30 years ago, they were told that the Green Home, above Gracemere Hall, was the most beautiful of all the Browning daughter's homes; her home was a Browning daughter's home also. The Green Home was falling down at that time, but we were able to crawl around inside to see some of the magnificent architectural details. It was torn down a few years ago in preparation for a 12-home sub-division, called Jardim Estates East. The Akers Home at 740 South Broadway is the most valuable, historical property in all of Tarrytown, due to its age and significance in our local heritage; we cannot lose this historical home. By land marking such an important property, the Village is not denying the sale; contrarily, you are ensuring its survival, which is a duty as members of the Board of Trustees in her estimation. The Tarrytown south end has lost

multiple old estates, much of our Village history and this has happened throughout the Village. The Music Hall was rescued by forethought and action and what an amenity it has been for the Village, which “they would have paid paradise and put up a parking lot.” Let’s not lose another chunk of our history. We don’t need another mega-mansion, we need our historical life to remain intact, our trees, and our natural landscape in hand. Ms. Viertel urged the Board to landmark the Akers farmhouse and take a wide step for preserving our local heritage. Ms. Viertel asked if the public can be kept informed on this subject on the Village’s website.

Administrator Slingerland noted that Ms. Viertel can stay in touch with the Historical Society and the Village can post it on our website and on social media, Facebook 10591.

Lisa Peterson, Newtown, Connecticut, her family lived at 740 South Broadway and Belvedere for 30 years in the 1960’s. She was a little concerned when she was here at the last public hearing to hear the Church talk about how well they kept up their properties. She has slides of archival pictures and present pictures of the properties at both Belvedere and 740 South Broadway that she presented to the Board of Trustees. Ms. Peterson believes the house at 740 South Broadway was built in 1735, which would make it an 18th Century home. She showed a pictures of the house at 740 South Broadway back in 1962 in very good condition, landscaped, painted, well preserved, and another in its present deteriorated condition. She showed pictures of the interior showing built in book cases and flooring in very good condition. The floor boards in the current house at 740 are the same and she feels they are worth preserving. She showed a picture of the beautiful stone and wrought iron gate that was the entrance to the Belvedere estate at the time the Church purchased the property, around 1972, which is no longer there today. She showed slides of the “Big House” at the Belvedere Estate around 1958, when it was fully landscaped. She showed interior shots of the “Big House” all in tact with beautiful fountains and tile. The landscaping on this property was one of the main features including a beautiful rock garden. The swimming pool, tennis court and gymnasium were all maintained and in very good condition when she lived there back in the 1960’s. Today, the pool is filled in and no longer exists. She showed slides of the lake house on the property from the 1960’s in good condition and in a current picture, the structure has collapsed and the lake is not maintained. She showed slides of the greenhouses with beautiful gardens in very good condition. The current condition of the greenhouses shows a deterioration state from lack of maintenance. She showed slides of the garages and stables that were also poorly maintained with garbage piled along the property.

Mayor Fixell asked who the Belvedere Estate was built for. Ms. Peterson noted that Belvedere was purchased in 1930 by Dr. Philip Cole, where it was renamed Zeeview. He later purchased 740 South Broadway to house his extensive American Western Art collection.

Sara Mascia, Executive Director of the Historic Society, noted that in the Village Code, it states that this historic district includes all the properties in the South End District and also states “all buildings, walls and other structures within the area would be included as part of

the historic district.” All the buildings that Ms. Petersen showed tonight are all included in the historic district.

Trustee McGovern moved, and Trustee Zollo seconded, and unanimously carried (6-0), that the following resolution be adopted:

OPPORTUNITY FOR THE PUBLIC TO ADDRESS THE BOARD ONLY ON AGENDA ITEMS. SPEAKERS SHALL HAVE THREE (3) MINUTES EACH TO ADDRESS THE BOARD OF TRUSTEES

Administrator Slingerland noted that there is a proposal on the table, Item No. 18 on tonight's agenda which would establish the minimum age as 18 years for firefighters in the Tarrytown Fire Department to participate in heightened risk activities. This would not be removing anyone from the Fire Department. Because of restrictions within the Worker's Compensation Law, "there are payments of double-indemnity due when a Worker's Compensation Board determines that an injury has occurred while a minor was engaged in hazardous employment. The extra payment or penalty payment is due entirely from the employer, not the carrier or someone else." We are proposing a resolution to limit their activities for their own benefit as well as protecting the Village's liability and financial exposure. The Fire Chiefs have asked the Board to bring it back to the next work session to have further discussion on this topic and to clarify what is heightened risk and what is not.

Mayor Fixell noted to add to that, the Board is prepared to vote on a resolution tonight to issue a temporary order to the Fire Chief's to not have any firefighters under the age of 18 in heightened risk activities for the time being.

Craig Allan, Tarrytown Firefighter, noted that he had heard that men and women from Sleepy Hollow High School would not be able to have the opportunity to join the Fire Department. Allowing high school students to join a volunteer organization like the fire department gives the fire department viability and a chance to attract students in their mid-teens to begin training and earn their high school requirement of 140 hours of volunteer work. It is an opportunity for them to obtain volunteer experience before they go off to college. He believes students in their mid-teens are strong candidates and should be given an opportunity to serve as a volunteer in the Fire Department.

David Cova, Tarrytown Firefighter, asked if the issue at hand has anything to do with taking the County's Firefighter One training. Westchester County permits people at age 16 years and up to take Firefighter One training.

Administrator Slingerland noted that having training under supervised and controlled conditions is very different than having emergency response to burning buildings or tearing or demolishing structures. Having a potential injury of a major or permanent disability to happen to someone who is a minor is really the main concern.
